

Curriculum Vitae: Joseph Chen

Paris | 06 08 34 10 56 | jchen@lpsm.paris

EDUCATION

- | | |
|--|------------------------------|
| LPSM at Sorbonne Université
FSMP Postdoc in Mathematics
Supervised by Piet Lammers | <i>Oct. 2025 - Oct. 2027</i> |
| Courant Institute of Mathematical Sciences (NYU)
Ph.D, Mathematics
Advised by Eyal Lubetzky | <i>Aug. 2020 - May 2025</i> |
| University of California, Berkeley
Bachelor of Arts, Mathematics (Highest Honors) | <i>Aug. 2016 - May 2020</i> |

PREPRINTS/PUBLICATIONS

1. **The limit shape and emergence of the Discrete Gaussian level lines**, with E. Lubetzky, Preprint. ([arXiv](#))
2. **The limiting law of the Discrete Gaussian level lines**, with E. Lubetzky, Preprint. ([arXiv](#))
3. **Logarithmic delocalization of low temperature 3D Ising and Potts interfaces above a hard floor**, with R. Gheissari and E. Lubetzky, Transactions of the American Mathematical Society, to appear. ([arXiv](#))
4. **Critical wetting in the (2+1)D Solid-On-Solid model**, with R. Gheissari and E. Lubetzky, Electronic Communications in Probability 29 (2024), paper no. 59, 1-12 pp. ([Link](#))
5. **Extrema of 3D Potts interfaces**, with E. Lubetzky, Communications in Mathematical Physics 405 (2024), no. 3, paper no. 86, 81 pp. ([Link](#))

AWARDS

- **Kurt O. Friedrichs Prize**, *New York University (2026)*: “Awarded for an outstanding dissertation in mathematics”
- **Henry M. MacCracken Fellowship**, *New York University (2020-25)*: Full Ph.D. support at NYU
- **Dorothea Klumpke Roberts Prize in Mathematics**, *UC Berkeley (2020)*: “Awarded to seniors who have demonstrated truly exceptional scholarship in mathematics”

- **Highest Distinction in General Scholarship**, *UC Berkeley (2020)*: Equiv. Summa Cum Laude

TALKS

- Université Paris-Est Créteil (UPEC) Probability Seminar (Apr. 2026)
- Université Paris Cité MAP5 Probability Seminar (Apr. 2026)
- LPSM Probability Seminar (Probas du vendredi) (Apr. 2026)
- Geometric Methods in Percolation and Spin Systems (ICTS) (Mar. 2026)
- Les Diablerets Mathematical Physics Workshop (Feb. 2026)
- LA Probability Forum (Caltech) (Jan. 2026)
- Northeast Probability Seminar, short-talk (Nov. 2024)
- BIRS Workshop: Frontiers of Statistical Mechanics and Theoretical Computer Science, mini-talk (Aug. 2024)
- Northwestern Probability Seminar (Apr. 2024)
- Courant Student Probability Seminar (Feb. 2023, Oct. 2023, Oct. 2024)

TEACHING/WORK EXPERIENCE

- **Adjunct Instructor**, *Courant Institute, NY*
 - MATH-UA.140 (Linear Algebra) *Summer 2025*
 Instructor for the summer class for Linear Algebra, consisting of ~35 students.
 Prepared class syllabus, lecture content, homeworks, and exams.
- **Teaching Assistant**, *Courant Institute, NY*
 - MATH-UA.233 (Theory Of Probability) *Spring 2023*
 - MATH-UA.140 (Linear Algebra) *Fall 2024*
 Taught weekly recitations and graded exams for ~70 students per class in coordination with other TA's.
- **Private Tutor**
 - AP Calculus BC *Summer 2020*
 - Descriptive and Inferential Statistics *Summer, Fall 2020*
 Met weekly to work on practice problems together and explain challenging concepts.
- **Intern at CK-12 Foundation** *Summer 2017*
 Produced interactive figures and lessons for online geometry, calculus, and statistics textbooks, found [here](#).
